O R D E R.

Public Works Department;
Bombay Castle, 3rd May 1944.

No.5660/36.- Whereas by Government Order, Public Works Department No.5660/36, dated the 29th April 1944 Government was pleased to intimate to the Hubli Electricity Company, Limited, Hubli, under clause (d) read with clause (g) of section 5 of the Indian Electricity Act, 1910 (IX of 1910) that it had elected to purchase the undertaking of the said Company and to require the said Company to sell the undertaking to the Government and to hand over possession of the same to Mr.Nidamangalam Chakrapani Raghavan, Deputy Engineer, on the 1st May 1944;

And Whereas the said Company has failed to comply with the said Order pending the settlement of the price and completion of the purchase;

And Whereas the determination of the price as provided in clause (b) of section 5 of the Indian Electricity Act, 1910 (IX of 1910) and the completion of the purchase of the said --- undertaking would take time;

And Whereas it appears to the Government of Bombay that in the interests of the efficient prosecution of the war and for maintaining supplies and services essential to the life of the community, it is necessary to exercise control over the whole of the said undertaking pending completion of the purchase of the said undertaking;

Now, Therefore, in exercise of the powers conferred by sub-rule (3) of rule 81 of the Defence of India Rules, the Government of Bombay is pleased -

(i) to authorise Mr.Nidamangalam Chakrapani Raghavan, Deputy Engineer, to exercise, such effective control as to keep the said undertaking in efficient working order consistent with the provisions of the Indian Electricity Act, 1910; and

(ii) to prohibit the Hubli Electricity Company, Limited, Hubli, from interfering with or obstructing the said Mr.Nidamangalam Chakrapani Raghavan, Deputy Engineer, in the discharge of his functions under clause (i).

By order of the Governor of Bombay,

R.H.HAMMETT,

Secretary to Government.

Hubli, 22nd April 1942.

The Deputy Secretary to the Government,
Public Works Department,
Bombay.

Sir,

We regret to bring to your kind notice that we are now experiencing very great difficulty in getting supplies of fuel-oil from Bombay in time for our requirements. All our reserve stocks have been completely exhausted and fresh supplies are meeting with abnormal delay in transit. We are therefore getting afraid whether the supplies that we might be receiving at such long intervals would enable us to run our plant continuously even for lighting during nights.

In view of the above abnormal situation, we have to request you to kindly permit us to restrict the hours of our electric supply dependent upon the stocks of diesel oil that shall be at our disposal from time to time till normal supplies of oil are restored. We would propose that under such emergent conditions, we should be permitted to give supply of energy for lighting between 6 p.m. and 1 a.m. every day, to the exclusion of all supply during the other hours though we would try our very best to maintain the supply for such period as may be possible during the latter period also. We fully trust that our submission will meet with your favourable consideration and that requisite permission will be granted to us at an early date.

Yours faithfully,

For The Hubli Electricity Co. Ltd.

Ref. L./5.

Hubli, 4th May. 1942.

The Deputy Secretary to the Government,
Public Works Department,
Bombay.

Sir,

As the present stock position of fuel oil with us has gone very low, making it possible to run our power station for only 4 or 5 days more if the supply is to continue for all the 24 hours, we have been reluctantly compelled to trouble you with our telegram this day reading as under:-

"Reference Our Letter Twenthysecond Ultimo. Dieseloil Stocks For Four Days Only. Suppliers Uncertain Of Despatches. Kindly Permit By Telegram, Only Night Supply From 6 to 11. Most Urgent."

We very much regret to submit that in spite of repeated requests and telegrams to our regular suppliers of oil, viz., Messrs. Burmah Shell and Messrs. Standard Vacuum Oil Co., we have not so far heard from them of a definite date when they could forward even a small quantity of oil to last us for a few days. In normal days it would take about ten days for a consignment to reach Hubli from Bombay, while it may take a longer period in these abnormal days when transport facilities are not quite so good.

It will thus please be seen that even though a consignment of oil is despatched immediately from Bombay, we shall have to remain without any oil for at least a week after the next 4 or 5 days.

It is under such circumstances that we have prayed you for requisite permit being kindly granted to us to give supply of energy from only 6 P.M. to 11 P.M. which is the most important period from

To: The Deputy Secretary to the Government,
Public Works Department, Bombay.

from point of view of lighting and public convenience, in preference to supply at other periods dependent upon the stocks of fuel oil with us.

We therefore trust that you will have been pleased to pass such orders to us by the time this reaches you. Requesting to be excused for the trouble,

Yours faithfully,

Hubli, 11th May 1942.

The Assistant Secretary to the Govt.of Bombay,
Public Works Department,
Bombay.

Sir,

P 8

We beg to acknowledge the receipt of your kind telegram of 5th instant permitting us to give only night supply from 6 to 11 until oil supplies arrive. This information was duly announced by us in the Daily Paper "Samyukta Karnataka" issue of 6th instant for the information of our consumers, in addition to the information already conveyed to them on 3rd instant in the said paper that our oil stocks were available for working for 3 or 4 days only.

We very much regret however to bring to your kind notice that by the time the said telegram was received by us on 5th inst. all our oil stocks were almost exhausted. So we have been disabled from giving even the restricted hours of supply regularly from 6th instant. In spite of all our best efforts to get supplies of oil from Bombay, we have not been able to get the same till now at Hubli. The tank wagons of oil are advised to have been despatched from Bombay on only 7th instant and they are expected to reach Hubli in 2 or 3 days, if there are no unusual delays in transit.

In order, however, that there should be the least possible inconvenience to our lighting consumers, we have, during the past five days, been borrowing from friends such small quantities of diesel oil as they could spare to us after great pursuation and have thus been giving partial supply in the city. We had, however, to

Sir,

Re:Diesel Oil Supplies.

P 35

We submit herewith for your kind information a copy of the letter dated 17/7/42 addressed to us by Messrs.Burmah Shell in respect of their terminating the contract for diesel oil supplies to us from 1st November 1942.

Though they state that such termination should not be interpreted as an indication that supplies are in danger and that they hope to carry on deliveries on a day to day basis, we are getting very anxious that the supplies after 1st November 1942 may not become available in sufficient quantities for our needs. This fear is based on the experience we have already had during the past six months in the extra-ordinary delay of getting supplies even when there has been a regular contract for such supplies. We had been so far under the assumption that the delay in our getting supplies was due solely to the non-availability of sufficient number of railway tank wagons for despatches of oil or due to the unavoidable delay in transit after the oil is booked. The present intimation of Messrs.Burmah Shell, however, leads us to fear that even the availability of oil need not be taken for granted with any certainty.

If our fears are well based, we shall stand to suffer very great hardships to keep the power station running after 1st November 1942, with meagre or no stocks of diesel oil.

We shall therefore feel much obliged if the Govt.would be

To: The Deputy Secretary to the Govt.,
Public Works Department,
Bombay.

be pleased to make requisite arrangements with Messrs.Burmah Shell to see that we do not fall short of our requirements in diesel oil at any time in spite of their said intimation of 17th instant.'

Further, in order to enable us to conserve the stocks of diesel oil in these abnormal days and also to enable us to maintain the generating plant in good condition for regular supply of energy at a time when no spare parts are becoming available for the machinery, we shall feel much obliged if we are permitted to give supply from 8 A.M. to 12 Noon and 3 P.M. to 12 midnight only and to close down supply during other periods of the day and night. Such supply gives the least possible inconvenience to our consumers in these hard days. We understand that some such facility has already been extended to other electric supply undertakings like Belgaum, Sholapur etc. We request that such facility may please be granted to us also as per our above suggestions which are the best we can do for our consumers.

Hoping to be favoured with early orders in the matter and requesting to be excused for the trouble,

Yours faithfully,
for The Hubli Electricity Co.Ltd.,

Sir,

Re. Calculation of timings of hours
supply from 1st September 1942.

In view of the advancing of standard time all over India by one hour from 1st September 1942, we consider that our present hours of electric supply from 6 A.M. to 12 Noon and from 3 P.M. to 1 A.M., should be notified to our consumers as having been changed from 1/9/42 as under:-

from 7 A.M. to 1 P.M. -
and
from 4 P.M. to 2 A.M. -

We shall feel obliged to be advised that the issuing of such notice to our consumers would be in order.

Yours faithfully,

REF. L./5.

The Deputy Secretary to the Government,
Public Works Department,
Bombay.

Sir,

Re: Restricted Hours of Supply.

Under the orders of the District Magistrate, Dharwar, our hours of supply have been cut down from 16 to 12½ per day.

This has brought down our generated units to nearly half of what it used to be in the normal period. Further, when compared to the 16 hours of supply we were giving in August last, the generated units have come down by nearly one-third. This has naturally affected our revenue to such an extent that it may become difficult for us to make our both ends meet.

Though the object of cutting down the hours of supply has been obviously the conservation of fuel oil, this object is not being achieved to its full extent as the load is getting concentrated and compels us to run additional plant uneconomically.

In view of the above, we request you to kindly permit our giving supply for a period of 16 hours per day as before, or at least for a minimum period of 14 hours during these winter days when the Sun sets early and the industrial load thereby gets concentrated in the evenings.

Hoping that this will please meet with your sympathetic consideration and awaiting early orders through the District Magistrate, Dharwar, in the matter,

Yours faithfully,
for The Hubli Electricity Co.Ltd.,

Managing Agents.

Re:- The Hubli Electric License.

1 In order to permit of the consumers using lighting between the hours of 7.30 p.m. and 12 midnight, the District Magistrate be requested to issue an Order prohibiting the consumers, in accordance with the list attached, from using motive power between the hours of 7.30 p.m. and midnight.

2 At present, supply is being made between the hours of 7.30 p.m. and midnight on different feeders, with the consequence that a number of consumers are without light at all except two or three times during a week. It is hoped that, by prohibiting the motive power consumers from operating during lighting hours, to give more lighting to the general consumers.

3 The following cinemas at Hubli which have their own generating sets may be prohibited from taking any power whatsoever from the Hubli Electricity Co.Ltd.:

1. Ganesh Talkies, Ganeshpet.
2. Deccan Cinema, Maratha Gulli.
3. Sudharshan Talkies, Kopikar Road.
4. Chandrakala Talkies, Station Road.
5. Mallikayan & Mohan Talkies (in one compound), Koppikar Road.
